

8-19-24

City Officials of La Pine

You made a Huge Mistake for the future of La Pine by approving the location of the Habitat for Humanity project to be built next to the Crescent Creek neighborhood.

The residents of Crescent Creek are primarily retirees who moved to La Pine for peace, safety and serenity in their late years. The Crescent Creek neighborhood offers that, and the beauty of natural surroundings that should be protected from all that low income, high density neighborhoods bring to a community.

However, La Pine is rapidly developing into a low income high density destination rather than the charming, country living small town it could be, and should be, with leaders that should be dedicated to protecting our city from crime. Blight, Gangs, Drugs, Parolees, Child Predators, Cartels, Sex Trafficking, all that lowers property values and ruins a community is the outcome of what you are inviting to La Pine.

The scenario is real and your planning for growth in La Pine is on the wrong path!

YOU ARE SELLING OUT THE FUTURE OF OUR TOWN by negligent planning and hasty decisions!!

La Pine is on a path to become like many other dangerous, improvised small towns in Oregon and the entire US??

Our society is not what it once was, it's become dangerous!

Careful, thoughtful planning by dedicated professionals to wisely protect and balance family neighborhoods with low income neighborhoods is imperative for the future of La Pine.

BE CAREFUL in your decisions for the protection of the Citizens of our community and La Pines future.

FIX YOUR MISTAKE!

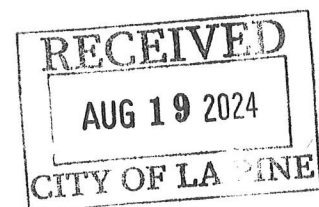

Find a better suited location for the Habitat Development!

Respect and protect the Crescent Creek Community as well the city as a whole, by making dedicated decisions for the best future of La Pine!

Jane Sauers

Crescent Creek Homeowner for 19 years.
