To The City of La Pine Planning Commission

I am soon to be a homeowner at 16676 Yarnherst in Crescent Creek.

We are extremely distressed over the planned development of 01 sub-24 Habitat.

This house was to be our last. The amenities and safety was our main reason for choosing Crescent Creek.

With this proposed development, I will not feel safe with the added traffic while walking or driving in our community.

It is extremely unfortunate that the Planning Commission made the choice to deteriorate our home values, safety and lifestyle. Crescent Creek is the nicest and most well kept development in La Pine and with your decision it will be undesirable.

In closing I feel it is transgression on how the Commission is allowing La Pine to grow into a third world city. La Pine had great potential to be a quaint welcoming city.

I feel that the Planning Commission and Board should live in the city they represent. Then there may be some pride taken in your choices on growth.
